

## Letter from Arthur McCurdy to Sarah Fuller, June 15, 1895

Beinn Bhreagh, 203 Victoria County, June 15th. 1895. Cape Breton, N.S. Dear Miss Fuller;

—

Your note of the 12th instant addressed to Mr. Bell received.

Mr. Bell is very busy at the Laboratory getting his work in condition to leave for Flint about the 26th. instant. He has written to secure accommodations at Flint and at present expects to be there., and to deliver and address.

I fear that last year's address is doomed; Mr. Bell has started several times to complete it, but other things have interfered and he may never revise it. Why would it not be a good plan for you yourself to revise the stenographer's notes and publish the address without further reference to Mr. Bell. It is a good address as it stands, and as you do no doubt know the necessary corrections you could do it better than any one else. It seems a pity that the Report should be any longer delayed.

Yours sincerely Arthur WMCurdy Secy
